July 23, 2021

Dear Substance Use Disorders (SUD) System of Care Providers:

Following the release of the Department of Health Care Services (DHCS) *Behavioral Health Information Notice No: 20-074* International Classification of Diseases Tenth Revision (ICD-10) Included Code Sets and System Edit for Short-Doyle II Medi-Cal Billing, there were revisions to the ICD-10 Included List for Substance Use Disorders. The revisions include codes which relate specifically to alcohol or substance withdrawal diagnoses.

The purpose of this letter is to inform you that a new SUD ICD-10 to DSM-5 Crosswalk has been approved. This crosswalk contains the pertinent SUD codes needed for billing and documentation purposes.

All documentation submitted to Contra Costa Behavioral Health Utilization Management (UM)/Utilization Review (UR) must continue to reflect the appropriate codes and information, which are listed on the crosswalk.

Thank you and please do not hesitate to contact our office if you have any questions related to this matter.

Sincerely,

Michelle Richardson, LMFT  
AODS Program Manager
