Description

Medication Assisted Treatment (MAT)-A
***Understanding medication-assisted treatment and its
role within the treatment system.***

A general overview of the medications used in MAT that
are available through the DMC-ODS Waiver. The
overview shall address each specific medication,
including the primary use for treatment and the
relationship, if any, with other medications available for
treatment. The training will cover the theory of MAT
and how MAT can be utilized to treat substance use
disorders.

Learning Objectives

1. Describe at least three acute and chronic effects of
alcohol and opioids.
2. Describe the prevalence of, and key populations
impacted by, alcohol and opioid use and abuse.
3. Provide examples of at least two medications that are
available to treat alcohol and opioid addiction.
