

We're making a big impact on small business.

Last year, Contra Costa SBDC helped more than 730 clients navigate through a pandemic and access \$27 million in capital to start or grow their business and create a meaningful impact on our local community – the likes of 152 new jobs.

Whether it's access to capital, human resources, compliance, marketing, accounting, or any other business need — SBDC is your one-stop-shop for accelerating small business success.

Contra Costa SBDC is proud to be a part of the greater NorCal SBDC network and work together to support local entrepreneurs and small businesses with the tools and insights to start, grow, and pivot their businesses.

SBDC is tax-payer funded, so our advising services come to you **completely free**, and all one-on-one advising is **100% confidential**.
